A large rainbow flag is shown waving against a clear blue sky. The flag is positioned diagonally, with its top right corner near the top right of the frame and its bottom left corner near the bottom left. The flag's colors are vibrant and distinct, showing the traditional six stripes of the rainbow flag. The text "WHAT IS LGBT PARENTING?" is overlaid on the lower portion of the flag.

**“WHAT IS LGBT PARENTING?”**

“LGBT PARENTING”  
is an app to help LGBT's  
parent to communicate  
and help each other  
by use this app”

# Statement of Interest

I have a friends who are gay parents. Some of them adopted their children. They said a child make their life complete and this is the big step for a gay parents become a family. I think that It will be great if I can make the app to help GLBT's parent to find information and help each other or carring experience. I think every parent has a same goal that how to treat a kid to be a good person in the future and take care by themselves. I saw some app that have many kind of general social network but they didn't have specific about LGBT parent. I really love to design this app for them and in the future I am doing to do open adoption also.

# Creative Brief

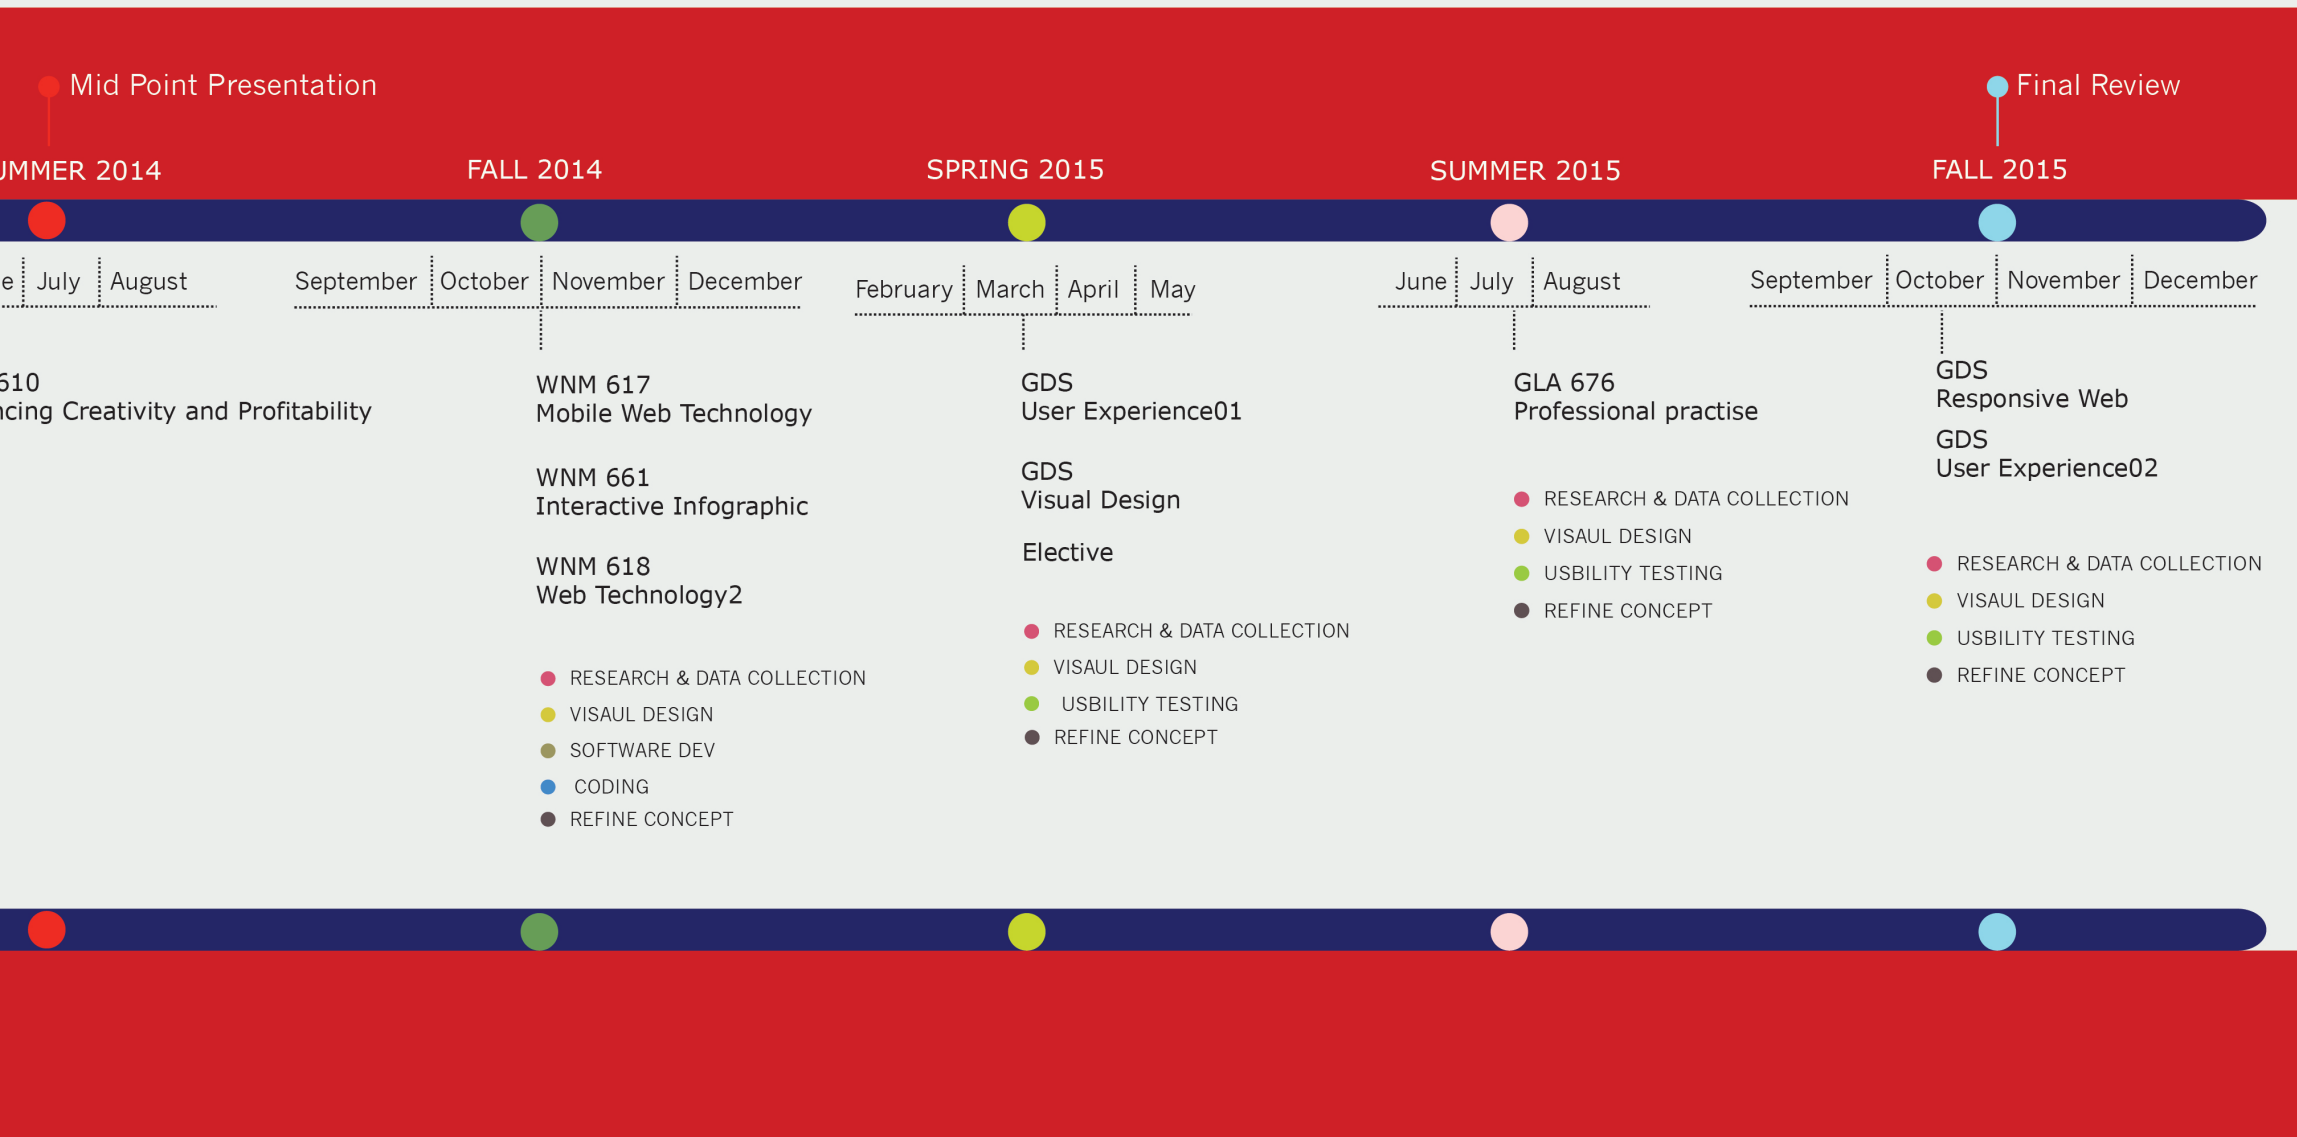

**LGBT Parenting is app to help LGBT's parent that have a child to sharing of experience and helping each other.** They can use this app to help each other and do activity together or someone check in some interesting place so then can check in and show to another user to know that also by use GPS , Wifi to activate or they can create event to a calender and invite all family to joint the event. This app will provide information of organization for helping LGBT parent also.

I think this app will useful for LGBT parent community to help each other and one more thing that I believe that they really love to treat their kid will be like a normal kid and proud to have a LGBT parent.
